Series editor's foreword	viii
Preface	ix
<b>1. Introduction</b>	<b>1</b>
<b>2. Budgets</b>	<b>7</b>
2.1 Budgets	7
2.2 Recurrent and non-recurrent expenditure	10
2.3 Capital and revenue (or operating) expenditure	11
<b>3. The classification of resources</b>	<b>13</b>
3.1 Human resources	13
3.2 Premises and accommodation	15
3.3 Equipment and furniture	17
3.4 Stocks, supplies, consumables and expenses	18
<b>4. A basic framework for analysing revenue costs</b>	<b>21</b>
4.1 Cost	21
4.2 Direct costs, indirect costs, and overheads	22
4.3 Fixed costs, variable costs and semi-variable costs	23
4.4 Cost drivers	27
4.5 Variable costs, linearity and economies of scale	29
4.6 Committed and managed costs	30
4.7 Summary	30
<b>5. Volume and its relationship with fixed and variable costs</b>	<b>32</b>
5.1 The impact of volume on fixed, variable and total costs	32
5.2 Average cost	35
5.3 The behaviour of average costs	36
5.4 Marginal costs	37
5.5 Break-even	37
5.6 Conclusion	40

<b>6. The treatment of capital costs</b>			
6.1 Depreciation	42		
6.2 Social discount rate	43		
6.3 Annualization factor	43		
6.4 Investment in course materials	45		
6.5 Conclusion	47		
	49		
<b>7. Overheads</b>			
7.1 Direct and indirect costs and their relationship to products and services	51		
7.2 Traditional management accounting	51		
7.3 Criticism of traditional management accounting	52		
7.4 Activity-based costing	54		
7.5 Identification of cost objects	55		
7.6 Conclusion	59		
	62		
<b>8. Attribution of costs to joint products</b>			
8.1 Approaches to the attribution of costs to joint products	65		
8.2 An example of joint product costing: part-time provision in the UK, 1989	66		
8.3 Conclusion	70		
	72		
<b>9. The activity of costing</b>			
	74		
<b>10. Designing courses</b>			
10.1 Production rates	78		
10.2 Implications of production rates for institutions teaching by traditional and open/distance learning means	78		
10.3 Working practices	81		
10.4 Reducing the cost of labour	83		
10.5 Conclusion	86		
	91		
<b>11. Media: text, audio, video and computing</b>			
11.1 Text	92		
11.2 Audio	92		
11.3 Video	95		
11.4 Computing	98		
11.5 The relative costs of the different media	103		
	104		
<b>12. Student support</b>			
12.1 Interaction with students	107		
12.2 Administration of students	107		
12.3 Conclusion	118		
	119		
<b>13. Cost-efficiency</b>			<b>120</b>
13.1 The Open University: A case study in methodology			121
13.2 Technical issues in drawing comparisons			130
13.3 The development of a common methodology for economic studies of distance education			132
13.4 Evidence of cost efficiency in institutions or departments teaching by distance means alone			134
13.5 The cost efficiency of mixed mode systems			152
13.6 Conclusion			159
<b>14. Cost effectiveness</b>			<b>161</b>
14.1 Measuring effectiveness			161
14.2 Evidence of cost effectiveness in institutions teaching by distance means			164
14.3 The relative effectiveness of technologies			175
14.4 Conclusion			180
<b>15. Cost benefit</b>			<b>181</b>
15.1 Private rates of return: The theoretical background			182
15.2 Social rates of return: The theoretical background			183
15.3 Private and social rates of return in practice			184
15.4 Private rates of return from distance and open learning			187
15.5 Benefits to the employer from distance and open learning			189
15.6 Conclusion			191
<b>16. Costs, prices, demand and funding</b>			<b>193</b>
16.1 Prices, demand and what the student can afford			194
16.2 The state as a source of finance			197
16.3 Conclusion			202
<b>17. Conclusions</b>			<b>203</b>
<b>References</b>			<b>205</b>
<b>Subject Index</b>			<b>215</b>
<b>Name Index</b>			<b>220</b>
