

## DAFTAR ISI

|                                             |           |
|---------------------------------------------|-----------|
| KATA PENGANTAR                              | v         |
| DAFTAR ISI                                  | vii       |
| DAFTAR GAMBAR                               | ix        |
| <b>BAB 1 KONSEP DASAR ALGORITMA</b>         | <b>1</b>  |
| 1.1 Pentingnya Logika dan Algoritma         | 1         |
| 1.2 Definisi Logika                         | 2         |
| 1.3 Definisi Algoritma                      | 2         |
| 1.4 Kriteria Algoritma                      | 3         |
| 1.5 Struktur Algoritma                      | 4         |
| 1.6 Bagaimana Menyusun Algoritma yang Baik? | 5         |
| <b>BAB 2 ALGORITMA DALAM PEMROGRAMAN</b>    | <b>7</b>  |
| 2.1 Bahasa Pemrograman                      | 7         |
| 2.2 Penulisan Algoritma dalam Pemrograman   | 9         |
| <b>BAB 3 VARIABEL DAN TIPE DATA</b>         | <b>17</b> |
| 3.1 Variabel                                | 17        |
| 3.2 Tipe Data                               | 20        |
| <b>BAB 4 DASAR ALGORITMA PEMROGRAMAN</b>    | <b>25</b> |
| 4.1 Percabangan                             | 25        |
| 4.2 Perulangan                              | 32        |
| 4.3 Rekursif                                | 36        |

|                       |                                                             |    |
|-----------------------|-------------------------------------------------------------|----|
| <b>BAB 5</b>          | <b>LARIK ATAU ARRAY</b>                                     | 39 |
| 5.1                   | Pengertian Larik atau Array                                 | 39 |
| 5.2                   | Array Dimensi Satu                                          | 40 |
| 5.3                   | Array Dimensi Dua (Multidimensi)                            | 41 |
| <b>BAB 6</b>          | <b>METODE <i>DEVIDE</i> DAN <i>CONQUER</i></b>              | 43 |
| 6.1                   | Pengertian Metode <i>Devide and Conquer</i>                 | 43 |
| 6.2                   | Pengertian Metode <i>Sorting</i>                            | 44 |
| 6.3                   | Algoritma <i>Sorting</i>                                    | 45 |
| 6.4                   | Algoritma <i>Selection Sort</i>                             | 45 |
| 6.5                   | Algoritma <i>Insertion Sort</i>                             | 46 |
| 6.6                   | Algoritma <i>Quick Sort</i>                                 | 47 |
| 6.7                   | Algoritma <i>Buble Sort</i>                                 | 48 |
| 6.8                   | Algoritma <i>Merge Sort</i>                                 | 48 |
| 6.9                   | Latihan Soal                                                | 49 |
| <b>BAB 7</b>          | <b>METODE <i>SEARCHING</i></b>                              | 51 |
| 7.1                   | Pengertian Metode <i>Searching</i>                          | 51 |
| 7.2                   | Metode <i>Linear/Sequential Search</i>                      | 51 |
| 7.3                   | Metode <i>Binary Search</i>                                 | 52 |
| 7.4                   | Latihan Soal                                                | 55 |
| <b>BAB 8</b>          | <b>METODE <i>GREEDY</i></b>                                 | 57 |
| <b>BAB 9</b>          | <b><i>KNAPSACK</i> PROBLEM (PROGRAM <i>GREEDY</i>)</b>      | 61 |
| 9.1                   | Pengertian <i>Knapsack Problem</i> (Program <i>Greedy</i> ) | 61 |
| 9.2                   | <i>Travelling Salesman</i>                                  | 65 |
| 9.3                   | <i>Shortest Problem</i>                                     | 66 |
| 9.4                   | <i>Minimum Spanning Tree</i>                                | 66 |
| <b>DAFTAR PUSTAKA</b> |                                                             | 69 |
| <b>GLOSARIUM</b>      |                                                             | 71 |
| <b>INDEKS</b>         |                                                             | 75 |
