About This Book	vii
About the Authors	ix
Acknowledgments	xi
Foreword	xiii

Part One: Being Successful in the Inclusive Classroom

Chapter 1: Collaborating Effectively	3
Collaborating for Intervention	3
Collaborating with the Child Study Team	4
Collaborating with Parents and Families	13
Tips for Talking with Parents	16
Chapter 2: Preparing for Differentiated Learning	17
Working with Core Curriculum Standards	17
Assessing Learning Styles	18
Multiple Intelligences and Learning Strengths	20
Planning for Students with Special Needs	21
Chapter 3: Effective Teaching Strategies for Differentiating Instruction	25
The Effective Inclusive Classroom	26
Measuring Success	28

Part Two: Science Activities for the Inclusive Middle School Classroom

Chapter 4: Scientific Inquiry	33
Activity 1: Scientific Method	34
Activity 2: Famous Scientists	40

Chapter 5: Physical Science	45
Activity 1: Force	46
Activity 2: Motion	52
Activity 3: Properties of Matter	58
Activity 4: Phases of Matter	63
Activity 5: Acids and Bases	69
Activity 6: Using the Periodic Table	76
Activity 7: Alternative Energy Sources	82
Chapter 6: Earth and Space Science	89
Activity 1: Types of Rocks	90
Activity 2: Volcanoes	95
Activity 3: Minerals	101
Activity 4: Oceans and Seas	107
Activity 5: The Solar System	115
Activity 6: Stars and Galaxies	123
Activity 7: The Water Cycle	129
Chapter 7: Life Science	137
Activity 1: Classification of Organisms	138
Activity 2: The Structure and Function of Cells	145
Activity 3: Cell Division—Mitosis	150
Activity 4: Cell Division—Meiosis	155
Activity 5: Heredity and Genetics	160
Activity 6: Plants	166
Chapter 8: The Human Body	173
Activity 1: The Skeletal System, Joints, and Muscles	174
Activity 2: The Cardiovascular System	180
Activity 3: The Central Nervous System	188
Activity 4: The Digestive System	194
Activity 5: Blood	200
Activity 6: The Ear	207
Activity 7: The Eye	213
Answer Key	219
National Curriculum Standards	225
Glossary	229
Bibliography	237
Index	238
