DOI:

Flexible Distributions as an Approach to Robustness: The Skew-t Case	1
Adelchi Azzalini	
Determining the Number of Clusters Using Multivariate Ranks	17
Mohammed Baragilly and Biman Chakraborty	
Robust and Sparse Estimation of the Inverse Covariance Matrix Using Rank Correlation Measures	35
Christophe Croux and Viktoria Öllerer	
Robust Mixture Regression Using Mixture of Different Distributions	57
Fatma Zehra Doğru and Olcay Arslan	
Robust Statistical Engineering by Means of Scaled Bregman Distances	81
Anna-Lena Kißlinger and Wolfgang Stummer	
SB-Robustness of Estimators	115
Arnab Kumar Laha and A.C. Pravida Raja	
Combining Linear Dimension Reduction Subspaces	131
Eero Liski, Klaus Nordhausen, Hannu Oja and Anne Ruiz-Gazen	
On the Computation of Symmetrized M-Estimators of Scatter	151
Jari Miettinen, Klaus Nordhausen, Sara Taskinen and David E. Tyler	
Mortality and Life Expectancy Forecasting for a Group of Populations in Developed Countries: A Robust Multilevel Functional Data Method	169
Han Lin Shang	

Asymptotically Stable Tests with Application to Robust Detection	185
Georgy Shevlyakov	
List of Referees	201
