# Contents

**1 Introduction** ..... 1
- 1.1 Definition of Measurement ..... 3
- 1.2 Definition of Association ..... 5
- 1.3 Dimensions of Association ..... 6
  - 1.3.1 Symmetry and Asymmetry ..... 6
  - 1.3.2 One-Way and Two-Way Association ..... 7
  - 1.3.3 Models of Interpretation ..... 7
  - 1.3.4 Cross-Classification ..... 7
  - 1.3.5 Correlation, Association, and Agreement ..... 8
- 1.4 Criteria for Measures of Association ..... 10
- 1.5 Degree of Association ..... 11
- 1.6 The Choice of a Measure of Association ..... 12
- 1.7 Overview of Chaps. 2 Through 10 ..... 15
- 1.8 Coda ..... 16

References ..... 17

**2 Permutation Statistical Methods** ..... 19
- 2.1 Two Models of Statistical Inference ..... 20
- 2.2 Permutation Statistical Tests ..... 20
  - 2.2.1 Exact Permutation Tests ..... 22
  - 2.2.2 Monte Carlo Permutation Statistical Tests ..... 27
  - 2.2.3 Moment-Approximation Permutation Tests ..... 31
- 2.3 Analyses of $r$-Way Contingency Tables ..... 37
  - 2.3.1 Tests of Independence ..... 37
  - 2.3.2 Tests of Goodness of Fit ..... 41
- 2.4 Permutation and Parametric Statistical Tests ..... 42
  - 2.4.1 Permutation Tests and Random Sampling ..... 43
  - 2.4.2 Permutation Tests and Normality ..... 46
  - 2.4.3 Permutation Tests and Small Sample Sizes ..... 47
  - 2.4.4 Permutation Tests and Data Dependency ..... 48
- 2.5 Advantages of Permutation Methods ..... 49

2.6 Calculation Efficiency ..... 52
2.6.1 High-Speed Computing ..... 53
2.6.2 Analysis with Combinations ..... 54
2.6.3 Mathematical Recursion ..... 56
2.6.4 Recursion with an Arbitrary Initial Value ..... 61
2.6.5 Variable Components of a Test Statistic ..... 63
2.7 Coda ..... 65
References ..... 65

**3 Nominal-Level Variables, I** ..... 73
3.1 Chi-squared-Based Measures ..... 74
3.1.1 Pearson's $\phi^2$ Measure of Association ..... 74
3.1.2 Tschuprov's $T^2$ Measure of Association ..... 78
3.1.3 Cramér's $V^2$ Measure of Association ..... 80
3.1.4 Limitations of $\phi^2$, $T^2$, and $V^2$ ..... 82
3.1.5 Pearson's $C$ Measure of Association ..... 82
3.1.6 Proper Norming ..... 85
3.2 Maximum Arrangement of Cell Frequencies ..... 85
3.2.1 Application to $r \times c \times s$ Contingency Tables ..... 88
3.3 Measures of Effect Size ..... 91
3.4 Likelihood-Ratio Tests ..... 94
3.5 Multi-way Contingency Tables ..... 96
3.5.1 Method ..... 96
3.5.2 Example ..... 98
3.6 Chi-squared Goodness-of-Fit Tests ..... 102
3.6.1 Chi-squared Goodness-of-Fit Example ..... 103
3.6.2 Likelihood-Ratio Goodness-of-Fit Example ..... 104
3.7 Other Goodness-of-Fit Tests ..... 105
3.7.1 Partition Theory ..... 107
3.7.2 Algorithm ..... 108
3.7.3 Examples ..... 109
3.7.4 Computational Efficiency ..... 115
3.8 Chi-squared and Correlation for $r \times c$ Tables ..... 116
3.8.1 Example Orthonormalization Analysis ..... 118
3.8.2 Analysis with Shadow Tables ..... 127
3.8.3 Summary ..... 132
3.9 Coda ..... 134
References ..... 135

**4 Nominal-Level Variables, II** ..... 139
4.1 Hypergeometric Probability Values ..... 140
4.2 Goodman and Kruskal's $\lambda_a$ and $\lambda_b$ Measures ..... 143
4.2.1 Example $\lambda_a$ and $\lambda_b$ Analyses ..... 147
4.3 Goodman and Kruskal's $t_a$ and $t_b$ Measures ..... 149
4.3.1 Example Analysis for $t_a$ ..... 151
4.3.2 Example Analysis for $t_b$ ..... 152

4.4 An Asymmetric Test of Homogeneity ..... 153
4.4.1 Example 1 ..... 155
4.4.2 Example 2 ..... 158
4.5 The Measurement of Agreement ..... 159
4.5.1 Robinson's Measure of Agreement ..... 161
4.5.2 Scott's $\pi$ Measure of Agreement ..... 165
4.5.3 Cohen's $\kappa$ Measure of Agreement ..... 167
4.5.4 Application with Multiple Judges ..... 172
4.5.5 Example Analysis with Multiple Judges ..... 175
4.6 McNemar's $Q$ Test for Change ..... 175
4.6.1 Example 1 ..... 177
4.6.2 Example 2 ..... 178
4.7 Cochran's $Q$ Test for Change ..... 179
4.7.1 Example 1 ..... 180
4.7.2 Example 2 ..... 182
4.8 A Measure of Effect Size for Cochran's $Q$ Test ..... 183
4.8.1 A Chance-Corrected Measure of Effect Size ..... 185
4.8.2 Example ..... 186
4.8.3 Advantages of the $\Re$ Measure of Effect Size ..... 189
4.9 Leik and Gove's $d_N^c$ Measure of Association ..... 190
4.9.1 Observed Contingency Table ..... 192
4.9.2 Expected Contingency Table ..... 193
4.9.3 Maximized Contingency Table ..... 196
4.9.4 Calculation of Leik and Gove's $d_N^c$ ..... 200
4.9.5 A Permutation Test for $d_N^c$ ..... 202
4.10 A Matrix Occupancy Problem ..... 202
4.10.1 Example Analysis ..... 204
4.11 Fisher's Exact Probability Test ..... 205
4.11.1 Fisher's Exact Analysis of a 2×2 Table ..... 206
4.11.2 Larger Contingency Tables ..... 210
4.12 Analyses of 2×2×2 Tables ..... 215
4.12.1 A 2×2×2 Contingency Table Example ..... 217
4.12.2 A 3×4×2 Contingency Table Example ..... 217
4.13 Coda ..... 218
References ..... 218

**5 Ordinal-Level Variables, I** ..... 223
5.1 Pairwise Measures of Ordinal Association ..... 224
5.2 Permutation Statistical Methods ..... 227
5.3 Kendall's $\tau_a$ Measure of Ordinal Association ..... 229
5.3.1 Example 1 ..... 231
5.3.2 Example 2 ..... 234
5.3.3 Example 3 ..... 235
5.3.4 Example 4 ..... 237

5.4 Kendall's $\tau_b$ Measure of Ordinal Association ..... 239
5.4.1 Example 1 ..... 239
5.4.2 Example 2 ..... 241
5.4.3 Kendall's $\tau_b$ and Wilcoxon's $W$ Measures ..... 243
5.5 Stuart's $\tau_c$ Measure of Ordinal Association ..... 244
5.5.1 Example 1 ..... 245
5.5.2 Example 2 ..... 246
5.5.3 Measures of Effect Size ..... 247
5.5.4 Sharper Bounds ..... 248
5.6 Goodman and Kruskal's $\gamma$ Measure ..... 254
5.6.1 Monotonicity ..... 255
5.6.2 Example 1 ..... 256
5.6.3 Example 2 ..... 257
5.7 Somers' $d_{yx}$ and $d_{xy}$ Measures of Association ..... 258
5.7.1 Example 1 ..... 259
5.7.2 Example 2 ..... 260
5.8 Kim's $d_{y \cdot x}$ and $d_{x \cdot y}$ Measures of Association ..... 262
5.8.1 Example 1 ..... 262
5.8.2 Example 2 ..... 265
5.9 Wilson's $e$ Measure of Ordinal Association ..... 267
5.9.1 Example 1 ..... 267
5.9.2 Example 2 ..... 269
5.10 Comparisons of Pairwise Measures ..... 270
5.10.1 Marginal Frequency Distributions ..... 274
5.11 Whitfield's $S$ Measure ..... 276
5.11.1 Example 1 ..... 279
5.11.2 Example 2 ..... 282
5.12 Cureton's Rank-Biserial Correlation Coefficient ..... 283
5.12.1 Example 1 ..... 284
5.12.2 Example 2 ..... 288
5.13 Relationships Among Measures ..... 290
5.14 Coda ..... 293
References ..... 293

**6 Ordinal-Level Variables, II** ..... 297
6.1 Spearman's Rank-Order Correlation Coefficient ..... 297
6.1.1 Example 1 ..... 300
6.1.2 Example 2 ..... 301
6.2 Spearman's Footrule Agreement Measure ..... 302
6.2.1 Probability of Spearman's Footrule ..... 304
6.2.2 Example 1 ..... 305
6.2.3 Example 2 ..... 306
6.2.4 Example 3 ..... 307
6.2.5 Multiple Rankings ..... 308
6.2.6 Example Analysis ..... 312

6.3 The Coefficient of Concordance ..... 313
6.3.1 Example 1 ..... 314
6.3.2 Example 2 ..... 316
6.3.3 A Related Procedure ..... 318
6.4 Kendall's $u$ Measure of Agreement ..... 321
6.4.1 Example 1 ..... 322
6.4.2 Example 2 ..... 329
6.5 Cohen's Weighted Kappa ..... 332
6.5.1 Example 1 ..... 335
6.5.2 Example 2 ..... 338
6.5.3 Linear and Quadratic Weighting Compared ..... 341
6.5.4 Weighted Kappa with Multiple Judges ..... 342
6.5.5 Algorithm for $r \times c \times s$ Contingency Tables ..... 344
6.5.6 Advantages of Linear Weighting ..... 347
6.5.7 Embedded 2×2 Tables ..... 348
6.5.8 Embedded 2×2×2 Tables ..... 351
6.6 Alternative Approaches for Multiple Judges ..... 355
6.6.1 Exact Variance Method ..... 355
6.6.2 Resampling Contingency Table Method ..... 356
6.6.3 Intraclass Correlation Method ..... 357
6.6.4 Randomized-Block Method ..... 357
6.6.5 Resampling-Block Method ..... 358
6.6.6 Example with Three Judges ..... 358
6.6.7 Strengths and Limitations of the Five Methods ..... 360
6.6.8 Discussion ..... 362
6.7 Ridit Analysis ..... 362
6.7.1 Example Calculations ..... 363
6.7.2 Example Ridit Analysis ..... 365
6.8 Coda ..... 367
References ..... 367

**7 Interval-Level Variables** ..... 371
7.1 Ordinary Least Squares (OLS) Linear Regression ..... 371
7.1.1 Univariate Example of OLS Regression ..... 372
7.1.2 Multivariate Example of OLS Regression ..... 373
7.2 Least Absolute Deviation (LAD) Regression ..... 375
7.2.1 Illustration of Effects of Extreme Values ..... 377
7.2.2 Univariate Example of LAD Regression ..... 389
7.2.3 Multivariate Example of LAD Regression ..... 390
7.3 LAD Multivariate Multiple Regression ..... 392
7.3.1 Example of Multivariate Multiple Regression ..... 394
7.4 Comparison of OLS and LAD Linear Regression ..... 399
7.4.1 Ordinary Least Squares (OLS) Analysis ..... 400
7.4.2 Least Absolute Deviation (LAD) Analysis ..... 401

7.4.3 Ordinary Least Squares (OLS) Analysis ..... 402
7.4.4 Least Absolute Deviation (LAD) Analysis ..... 402
7.5 Fisher's $r_{xy}$ to $z$ Transformation ..... 403
7.5.1 Distributions ..... 404
7.5.2 Confidence Intervals ..... 406
7.5.3 Hypothesis Testing ..... 409
7.5.4 Discussion ..... 414
7.6 Point-Biserial Linear Correlation ..... 417
7.6.1 Example ..... 417
7.6.2 Problems with the Point-Biserial Coefficient ..... 420
7.7 Biserial Linear Correlation ..... 424
7.7.1 Example ..... 426
7.8 Intraclass Correlation ..... 427
7.8.1 Example ..... 433
7.8.2 A Permutation Analysis ..... 434
7.8.3 Interclass and Intraclass Linear Correlation ..... 434
7.9 Coda ..... 435
References ..... 436

**8 Mixed-Level Variables** ..... 439
8.1 Freeman's Index of Nominal-Ordinal Association ..... 440
8.1.1 Example 1 ..... 441
8.1.2 Example 2 ..... 444
8.2 Agresti's Index of Nominal-Ordinal Association ..... 446
8.2.1 Example ..... 447
8.3 Piccarreta's Index of Nominal-Ordinal Association ..... 449
8.3.1 Example ..... 450
8.4 Comparisons Between $\hat{\delta}$ and $\hat{\tau}$ ..... 452
8.4.1 Example Analysis ..... 454
8.4.2 The Delta Method ..... 456
8.5 Dichotomous Nominal-Level Variables ..... 457
8.5.1 Whitfield's $\tau$ Measure of Association ..... 458
8.5.2 Cureton's $r_{rb}$ Measure of Association ..... 462
8.6 Measures of Nominal-Interval Association ..... 468
8.6.1 Product-Moment Correlation Coefficient ..... 468
8.6.2 The Correlation Ratio ..... 470
8.6.3 Kelley's $\epsilon^2$ ..... 471
8.6.4 Hays' $\hat{\omega}^2$ ..... 471
8.6.5 Mielke and Berry's $\Re$ ..... 472
8.6.6 Biased Estimators ..... 474
8.6.7 Homogeneity of Variance ..... 475
8.7 Dichotomous Nominal-Level Variables ..... 475
8.7.1 Point-Biserial Correlation ..... 476
8.7.2 Biserial Correlation ..... 478

8.8 Measures of Ordinal-Interval Association ..... 483
8.8.1 Jaspen's Index of Ordinal-Interval Association ..... 484
8.9 A Generalized Measure of Association ..... 492
8.9.1 Interval-Level Dependent Variables ..... 492
8.9.2 Ordinal-Level Dependent Variables ..... 497
8.9.3 Nominal-Level Dependent Variables ..... 500
8.9.4 Mixed Dependent Variables ..... 502
8.10 $\Re$ and Existing Statistics ..... 504
8.10.1 Interval-Level Dependent Variable ..... 505
8.10.2 Ordinal-Level Dependent Variable ..... 506
8.10.3 Nominal-Level Dependent Variable ..... 506
8.11 Coda ..... 507
References ..... 507

**9 Fourfold Contingency Tables, I** ..... 511
9.1 Fourfold Point Association ..... 512
9.1.1 Logical Models of Association ..... 512
9.1.2 Fourfold Contingency Tables ..... 513
9.2 Pearson's Mean-Square Measure of Association ..... 516
9.3 Pearson's Tetrachoric Measure of Correlation ..... 519
9.3.1 A Permutation Test for Tetrachoric Correlation ..... 523
9.3.2 Example 1 ..... 524
9.3.3 Example 2 ..... 526
9.4 Exact and Asymptotic Probability Values ..... 527
9.5 Yule's $Q$ Measure of Association ..... 531
9.6 Yule's $Y$ Measure of Association ..... 536
9.7 The Odds Ratio ..... 538
9.8 Goodman–Kruskal's $t_a$ and $t_b$ Measures ..... 540
9.8.1 Example with Goodman and Kruskal's $t_a$ ..... 541
9.8.2 Example with Goodman and Kruskal's $t_b$ ..... 543
9.8.3 Goodman–Kruskal's $t_a$, $t_b$, and $\chi^2$ ..... 543
9.9 Somers' $d_{yx}$ and $d_{xy}$ Measures ..... 544
9.9.1 Example with Somers' $d_{yx}$ ..... 545
9.9.2 Example with Somers' $d_{xy}$ ..... 546
9.10 Percentage Differences ..... 548
9.11 Kendall's $\tau_b$ Measure of Ordinal Association ..... 552
9.12 Kendall's $\tau_b$ and Pearson's $r_{xy}$ Measures ..... 554
9.12.1 Example ..... 557
9.12.2 An Alternative Proof ..... 561
9.13 Pearson's Correlation Coefficient ..... 564
9.14 Unstandardized Regression Coefficients ..... 566
9.15 Pearson's $\phi^2$ and Cohen's $\kappa$ Measures ..... 569
9.15.1 Example ..... 570
9.16 Coda ..... 574
References ..... 574

10.1 Symmetrical Fourfold Tables ..... 577
10.1.1 Statistics $\phi^2$, $T^2$, and $V^2$ ..... 578
10.1.2 Pearson's $r_{xy}$ Correlation Coefficient ..... 579
10.1.3 Regression Coefficients ..... 580
10.1.4 Leik and Gove's $d_N^c$ Statistic ..... 581
10.1.5 Goodman and Kruskal's $t_a$ and $t_b$ Statistics ..... 584
10.1.6 Kendall's $\tau_b$ Statistic ..... 585
10.1.7 Stuart's $\tau_c$ Statistic ..... 586
10.1.8 Somers' $d_{yx}$ and $d_{xy}$ Statistics ..... 587
10.1.9 Percentage Differences ..... 587
10.1.10 Yule's $Y$ Statistic ..... 588
10.1.11 Cohen's $\kappa$ Statistic ..... 588
10.2 Inter-relationships Among the Measures ..... 589
10.2.1 Notational Inconsistencies ..... 590
10.3 Extended Fourfold Contingency Tables ..... 590
10.4 The Mantel–Haenszel Test ..... 591
10.4.1 Example Analysis ..... 593
10.4.2 Measures of Effect Size ..... 594
10.5 Cohen's Kappa Measure ..... 596
10.5.1 Example 1 ..... 599
10.5.2 Example 2 ..... 601
10.5.3 Example 3 ..... 605
10.6 McNemar's and Cochran's $Q$ Tests for Change ..... 608
10.6.1 McNemar's $Q$ Test for Change ..... 608
10.6.2 Cochran's $Q$ Test for Change ..... 612
10.7 Fisher's Exact Probability Test ..... 614
10.7.1 Analysis of 2×2 Contingency Tables ..... 614
10.7.2 Analysis of 2×2×2 Contingency Tables ..... 616
10.8 Contingency Table Interactions ..... 618
10.8.1 Analysis of 2×2×2 Contingency Tables ..... 618
10.8.2 Analysis of 2×2×2×2 Contingency Tables ..... 622
10.9 Coda ..... 624
