

TABLE OF CONTENT

PREFACE.....	v
TABLE OF CONTENT	vii
CHAPTER 1 The Basic Network Analysis Components	1
1.1 Network Application.....	1
1.2 Network Traffic	2
1.3 Attack Signature.....	3
1.4 Challenges.....	4
CHAPTER 2 Network Intrusion Detection System (NIDS)	5
2.1 Intrusion detection system (IDS) based on signature	5
2.1.1 String matching algorithm.....	6
2.1.2 Implementation signature based IDS	7
2.2 Encryption Algorithm.....	8
2.3 Optimization IDS.....	11
2.4 Memory efficient exact pattern matching.....	12
2.5 Network processor	13
CHAPTER 3 Adaptive IDS Design	17
3.1 Analyzer.....	17
3.2 Pre-Filtering	18
3.2.1 Filter Architecture.....	18
3.2.2 Pattern Representatives Selection	19
3.2.3 Filter Cost Characterization	21
CHAPTER 4 High-Speed String Matching on FPGA.....	23
4.1 Multi-threading FSM	23

4.2 Partitioning Algorithm for Multi-Threading FSM	33
CHAPTER 5 Memory efficient IDS	37
5.1 Deterministic Finite Automata	38
5.2 Memory efficient Architecture.....	38
5.3 FSM State Encoding	41
CHAPTER 6 Multiprocessor Workload Mapping Technique.....	47
CHAPTER 7 Encryption and Decryption	51
