Abo	out the Book	XİX
1.	The Setting	1
	The Challenges of Rapid Motorization	1
	Emergence of New Paradigms	6
	Slow Application of the New Paradigms	11
	This Book and Its Structure	12
	References	15
2.	The Response: From Enhancing Supply to Managing Demand	17
	Background	17
	The Emerging Paradigm	18
	Strategies to "Manage" the Demand for Road Space	19
	Increasing the Number of Passengers per Motor Vehicle	20
	Discouraging the Ownership and Use of Personal Motor Vehicles	39
	Promoting Nonmotorized Modes	45
	Reducing the Average Number of Trips Made	46
	Reducing the Average Length of Trips	47
	Optimal Use of Available Road Capacity	49
	Summary	50
	References	51
3.	The Objective: Looking Beyond Congestion	55
	Background	55
	The Emerging Paradigm	57
	Improving Accessibility	60
	Increasing the Quality, Safety, and Security of the Informal Public Transport Sector	62
	Improving Traffic Safety: Reducing Accidents and Fatalities	64
	Improving Urban Public Health by Reducing Harmful Local Transport	
	Air Pollution Emissions	67

Impacting Energy Security	68
	69
Transport: the "Complete Street"	70
Improving Public Transport Security for Women and Other Vulnerable	
Travelers	71
Summary	74
References	75
Public Transit: From Compulsion to Choice	77
Background	77
The Emerging Paradigm	79
and stated which the same as	80
Summary: Emergence of Public Transport as a Mode of Choice	97
References	98
Network Planning: From Segment to Whole Trip	101
The Current Situation	101
	102
	106

	Improving Public Transport Security for Women and Other Vulnerable Travelers Summary References Public Transit: From Compulsion to Choice Background The Emerging Paradigm A Case for a Differentiated Public Transport Industry Summary: Emergence of Public Transport as a Mode of Choice References Network Planning: From Segment to Whole Trip The Current Situation Factors Influencing Choice of Public Transport Making the Choice The Emerging Paradigm Key Challenges to System Integration Based on the "Whole Trip" Concept The Experience So Far Summary: Planning for the "Whole Trip" Experience as a Paradigm Shift References Powering Motor Vehicles: From IC Engines to Electric Batteries Introduction Problems With Petroleum Fuels Recent Developments Impact of the Recent Developments Summary References Financing: From Users Pay to Beneficiaries Pay Background Traditional Approach to Financing Emerging Paradigms Summary

Emerging Paradigms Connected Vehicles Autonomous Vehicles Summarizing References 166 9. Transport Planning and Decision Making in the Age of Social Media: From Exclusivity to Inclusivity 169 The Problem 169 The Emerging Paradigm Emergence of Communications as Central to the Transport Planning Process Summary: Emergence of Communications as an Instrument of Change References 195 10. Impact of the ICT Age Introduction Optimizing the Use of Fixed and Mobile Transportation Assets Tracking Motor Vehicles Enabling Seamless Use of Multiple Transport Modes Fare Collection Systems Data Collection Systems Connected Vehicles Autonomous Vehicles Autonomous Vehicles Summary References 211 11. Looking Ahead Change So Far Change Ahead Unintended Consequences of Emerging Technologies Summary: Looking Ahead References Index	8.	Vehicles: From Independent to Networked	159
Connected Vehicles Autonomous Vehicles Summarizing References 9. Transport Planning and Decision Making in the Age of Social Media: From Exclusivity to Inclusivity 169 The Problem The Emerging Paradigm Emergence of Communications as Central to the Transport Planning Process Summary: Emergence of Communications as an Instrument of Change References 10. Impact of the ICT Age Introduction Optimizing the Use of Fixed and Mobile Transportation Assets Tracking Motor Vehicles Enabling Seamless Use of Multiple Transport Modes Fare Collection Systems Data Collection Systems Data Collection Systems Connected Vehicles Autonomous Vehicles Autonomous Vehicles Autonomous Vehicles Summary References 11. Looking Ahead Change So Far Change Ahead Unintended Consequences of Emerging Technologies Summary: Looking Ahead References		Emerging Paradigms	159
Summarizing References 9. Transport Planning and Decision Making in the Age of Social Media: From Exclusivity to Inclusivity The Problem The Emerging Paradigm Emergence of Communications as Central to the Transport Planning Process Summary: Emergence of Communications as an Instrument of Change References 10. Impact of the ICT Age Introduction Optimizing the Use of Fixed and Mobile Transportation Assets Tracking Motor Vehicles Enabling Seamless Use of Multiple Transport Modes Fare Collection Systems Data Collection Systems Data Collection Systems Connected Vehicles Autonomous Vehicles 211 Autonomous Vehicles 221 11. Looking Ahead Change So Far Change Ahead Unintended Consequences of Emerging Technologies Summary: Looking Ahead References		Connected Vehicles	160
