

TABLE OF CONTENTS

ABSTRACT	ii
CHAPTER 1 INTRODUCTION	1
CHAPTER 2 BACKGROUND	4
2.1 Campus Landscape Spaces	4
2.1.1 The importance of Campus Landscape Spaces	4
2.1.2 What Makes Campus Landscape Space Great	6
2.2 The Problems of Campus Landscape Space	8
2.2.1 Campus Landscape Space not Considered Important in the Past	8
2.2.2 Lack of Consideration on How People Use Campus Landscape Spaces	9
2.2.3 Users' Voice not Heard in Traditional Design Process	9
2.3 An new design approach for campus open space	17
2.3.1 Users should participate in the design process:	17
2.3.2 Community-based design process:	17
2.3.3 The need for the new design paradigm	21
2.3.4 New approach - Quality Function Deployment	22
2.3.5 Compare QFD and community-based process	23
2.4. Thesis intent and focus	26
CHAPTER 3 LITERATURE REVIEW	28
3.1 Campus Design	30
3.1.1 Campus Design history:	30
3.1.2 Campus Landscape Spaces Planning and Design in Recent Twenty Years	33
3.2 Research Related to Campus Landscape Space Design	40
3.2.1 Campus Landscape: Functions, Forms, Features	41
3.2.2 People Places	42
3.2.3. Active Living & Public Spaces:	44
3.2.4 Public Spaces:	48
3.3 Community-Based Approach	50
3.4 Quality Function Deployment (QFD)	52
3.4.1 What is QFD	52
3.4.2 House of Quality (HoQ)	54

3.4.3 Application of QFD in architecture:	58
3.4.3.1 Benefits of using QFD in architecture	59
3.4.3.2 Problems of using QFD in architecture:	60
3.4.3.3 Misconceptions	61

CHAPTER 4 CAMPUS LANDSCAPE SPACE DESIGN USING QFD 63

4.1 Define the users/customers	63
4.2 Acquire User Needs	64
4.3 Rank user needs	67
4.4 Identify design attributes	68
4.5 Development of correlation matrix, linking requirements/needs to design attributes	69
4.6 Generate different design alternatives	72
4.7 Evaluate different design alternatives	76

CHAPTER 5 DISCUSSION 80

5.1 Benefits provided by QFD	80
5.2 Obstacles in using QFD	82

CHAPTER 6 CONCLUSION 85

REFERENCE 87

APPENDIX PILOT STUDY 91
