

Table of Contents

Activity	Topic	Page
	Introduction to Anatomy and Physiology	
Activity 1	The Language of Science and Medicine	9
Activity 2	The Building Blocks of Matter	15
Activity 3	Acids, Bases, and pH (Oh My!)	21
Activity 4	Cell Transport Mechanisms	25
	Histology and Integument	
Activity 1	Basic Histology	33
Activity 2	Skin and Temperature Control	37
	Musculoskeletal System	
Activity 1	Range of Motion	43
Activity 2	Ossification	49
Activity 3	Articulations	55
Activity 4	The Sliding Filament Theory	61
	General Nervous	
Activity 1	Membrane Potentials	69
Activity 2	Conduction of Action Potentials and Synapses	77
Activity 3	Reflex Arcs - The Simplest Neural Circuit	83
Activity 4	Receptors, Receptors, Receptors	87
	Endocrine	
Activity 1	Endocrine Glands and Hormones	93
Activity 2	Hormone Mechanism of Action	99
Activity 3	Regulation of Endocrine Secretion	105
	Blood	
Activity 1	Red Blood Cells	113
Activity 2	ABO and Rh Blood Groups	119
Activity 3	Hemostasis	123
	Cardiovascular	
Activity 1	Cardiac Cycle, Part 1	127
Activity 2	Cardiac Cycle, Part 2	135
Activity 3	Capillary Exchange	141
Activity 4	Hemodynamics	145

Activity	Topic	Page
	Immunity	
Activity 1	Innate Immunity	153
Activity 2	Adaptive Immunity: T-cells and the Cellular Immune Response	159
Activity 3	Adaptive Immunity: The Humoral Response	165
	Thoracic and Abdominal Viscera	
Activity 1	Physiology of Upper GI Tract	171
Activity 2	Anatomy of Ventilation	179
Activity 3	Renin - Angiotensin System	185
Activity 4	Homeostasis	189
Activity 5	Acid/Base Homeostasis	191
	Reproductive and Development	
Activity 1	Meiosis	195
Activity 2	The Menstrual Cycle	201
Activity 3	Making a Person: From Zygote to Gastrula	205
	Genetics	
Activity 1	Mendelian Genetics	211
Activity 2	More Complex Forms of Inheritance	215
	Image Credits	221
	Endocrine	
	Endocrine Glands and Hormones	Activity 1
	Hormone Mechanism of Action	Activity 2
	Regulation of Endocrine Secretion	Activity 3
	Blood	
	Red Blood Cells	Activity 1
	ABO and Rh Blood Groups	Activity 2
	Hemostasis	Activity 3
	Cardiovascular	
	Cardiac Cycle, Part 1	Activity 1
	Cardiac Cycle, Part 2	Activity 2
	Capillary Exchange	Activity 3
	Hemodynamics	Activity 4
