<b>1</b>	<b>Digital Wireless Communications</b>	<b>1</b>
1.1	Wireless Channel Modeling	1
1.2	Digital Communications over Fading Channels	9
1.3	Effect of Frequency-Selective Fading	16
1.4	Summary	19
1.5	Further Reading	19
	References	19
<b>2</b>	<b>Transmission Technologies for Flat Fading Channels</b>	<b>20</b>
2.1	Diversity Combining Techniques	20
2.2	Channel Adaptive Transmission	31
2.3	MIMO Transmission	36
2.4	Summary	39
2.5	Further Reading	39
	References	40
<b>3</b>	<b>Transmission Technologies for Selective Fading Channels</b>	<b>41</b>
3.1	Equalization	41
3.2	Multicarrier Transmission/OFDM	44
3.3	Spread Spectrum Transmission	48
3.4	Summary	53
3.5	Further Reading	53
	References	54
<b>4</b>	<b>Advanced Diversity Techniques</b>	<b>55</b>
4.1	Generalized Selection Combining (GSC)	55
4.2	GSC with Threshold Test per Branch (T-GSC)	59
4.3	Generalized Switch and Examine Combining	66
4.4	GSEC with Post-Examining Selection (GSECps)	72
4.5	Summary	81
4.6	Further Reading	82
	References	82

<b>5</b>	<b>Adaptive Diversity Combining</b>	84
5.1	Output-Threshold Maximum Ratio Combining	84
5.2	Minimum Selection GSC	91
5.3	Output-Threshold GSC	102
5.4	Adaptive Transmit Diversity	113
5.5	RAKE Finger Management during Soft Handover	120
5.6	Joint Adaptive Modulation and Diversity Combining	128
5.7	Summary	143
5.8	Further Reading	143
	References	143
<b>6</b>	<b>Multuser Scheduling</b>	146
6.1	Multuser Selection Diversity	146
6.2	Performance Analysis of Multuser Selection Diversity	148
6.3	Multuser Diversity with Limited Feedback	154
6.4	Multuser Parallel Scheduling	160
6.5	Power Allocation for Parallel Scheduling	169
6.6	Summary	174
6.7	Further Reading	176
	References	176
<b>7</b>	<b>Multuser MIMO Transmissions</b>	179
7.1	Introduction	179
7.2	Zero-forcing Beamforming Transmission	182
7.3	Random Unitary Beamforming (RUB) Transmission	189
7.4	RUB with Conditional Best Beam Index Feedback	203
7.5	RUB Transmission with Receiver Linear Combining	211
7.6	Summary	222
7.7	Further Reading	222
	References	223
<b>8</b>	<b>Relay Transmission</b>	226
8.1	Basic Relaying Strategies	226
8.2	Opportunistic Nonregenerative Relaying	230
8.3	Cooperative Opportunistic Regenerative Relaying	240
8.4	Incremental Opportunistic Regenerative Relaying	246
8.5	Summary	254
8.6	Further Reading	254
	References	254
<b>9</b>	<b>Cognitive Transmission</b>	256
9.1	Introduction to Cognitive Radio	256
9.2	Temporal Spectrum Opportunity Characterization	258
9.3	Extended Delivery Time Analysis	263

	9.4 Spectrum Sharing: Single Antenna Transmitter	281
	9.5 Spectrum Sharing: Transmit Antenna Selection	289
	9.6 Summary	299
	9.7 Further Reading	299
	References	299
10	<b>Application: Hybrid FSO/RF Transmission</b>	303
	10.1 Switching-Based Hybrid FSO/RF Transmission	303
	10.2 Hybrid FSO/RF Transmission with Adaptive Combining	319
	10.3 Joint Adaptive Modulation and Combining for Hybrid FSO/RF Transmission	323
	10.4 Summary	330
	10.5 Further Reading	331
	References	332
11	<b>Application: Sensor Transmission with RF Energy Harvesting</b>	335
	11.1 Cognitive Transmission with Harvested RF Energy	335
	11.2 Cooperative Beam Selection for RF Energy Harvesting	351
	11.3 Summary	363
	11.4 Further Reading	364
	References	365
12	<b>Application: Massive MIMO Transmission</b>	367
	12.1 Antenna Subset Selection for Massive MIMO	367
	12.2 Hybrid Precoding for Massive MIMO	377
	12.3 Summary	388
	12.4 Further Reading	389
	References	389
Appendix	<b>Order Statistics</b>	391
	A.1 Basic Distribution Functions	391
	A.2 Distribution of Partial Sum of the Largest Order Statistics	393
	A.3 Joint Distributions of Partial Sums	397
	A.4 Limiting Distributions of Extreme Order Statistics	404
	A.5 Summary	405
	A.6 Further Reading	405
	References	405
	<i>Index</i>	407
