| <i>Foreword: 5G Empowers the Society for Development at a Rapid Speed</i> | v |
| <i>Foreword: 5G as the Engine for Upgrading and Development of the Vertical Industries</i> | ix |
| <i>Preface</i> | xiii |
| <i>About the Author</i> | xvii |
| Chapter 1 Intelligent Transportation — What You Need to Know | 1 |
| 1.1 The History and Present State of Intelligent Transportation | 2 |
| 1.1.1 The development of transportation | 2 |
| 1.1.2 Understanding intelligent transportation | 12 |
| 1.1.3 The development of intelligent transportation home and abroad | 15 |
| 1.2 Quick Advancement of Intelligent Transportation under the Support of Favorable Policies | 20 |
| 1.2.1 Abstract of program of building national strength in transportation | 20 |
| 1.2.2 Abstract of the action outline for promoting the development of Big Data | 22 |
| 1.2.3 Abstract of 13th five-year plan for the development of modern integrated transportation system | 22 |
| 1.2.4 Abstract of Development Plan for Digital Transport | 23 |

| | |
|---|-----------|
| Chapter 2 Power of Intelligent Transportation Redoubled with the Support of 5G | 27 |
| 2.1 Transportation Development as the Start of Smart City | 27 |
| 2.1.1 More comprehensive traffic information | 29 |
| 2.1.2 Traffic information delivery in a timelier manner | 29 |
| 2.1.3 More intelligent choice of transportation means | 30 |
| 2.1.4 More scientific traffic management and decisions | 30 |
| 2.1.5 More efficient transportation system | 30 |
| 2.2 Development of Intelligent Transportation with the Help of 5G | 31 |
| 2.2.1 Difficulties of transportation solved through the new feature of 5G | 31 |
| 2.2.2 The key technology of intelligent transportation with 5G+ | 34 |
| 2.2.3 The best fit between intelligent transportation and 5G | 48 |
| 2.3 The Significance of the Implementation of Transportation | 50 |
| 2.3.1 The plan for intelligent transportation | 50 |
| 2.3.2 The framework for intelligent transportation | 52 |
| Chapter 3 Better Life and Smart Travel with 5G+ | 57 |
| 3.1 More Convenient Travel with Informationized Service | 58 |
| 3.1.1 Information query and planning of travels | 58 |
| 3.1.2 Vehicle navigation and guidance of vehicle movement | 62 |
| 3.1.3 Electronic toll collection (ETC) and non-inductive payment | 65 |
| 3.2 Safer Travels with Smart Driving | 70 |
| 3.2.1 The classification of smart driving | 70 |
| 3.2.2 Smart driving at present | 71 |
| 3.2.3 Smart driving in the 5G era | 73 |
| 3.2.4 Smart travel in the 5G era | 74 |
| 3.3 More Comfortable Travel with the New Forms of Transportation | 79 |
| 3.3.1 Car sharing | 79 |
| 3.3.2 In-vehicle infotainment | 82 |

| | |
|--|------------|
| Chapter 4 Traffic Control with 5G+ — The More Intellectual Management | 89 |
| 4.1 More Effective Management: One Map of Integrated Information | 90 |
| 4.1.1 Road surveillance | 91 |
| 4.1.2 Traffic control | 93 |
| 4.2 More Intellectual Allocation for Urban Traffic Network | 98 |
| 4.2.1 Smart bus | 99 |
| 4.2.2 Smart rail transit | 101 |
| 4.2.3 Smart stops and stations | 102 |
| 4.3 Smoother Transport for Long-distance Passenger and Freight Service with 5G | 107 |
| 4.3.1 Smart port | 108 |
| 4.3.2 Smart airport | 109 |
| 4.3.3 Smart train/bus station | 111 |
| 4.3.4 The supervision on two types of passenger vehicles and vehicle for explosive terms | 112 |
| 4.3.5 Smart logistics | 113 |
| 4.4 Accident Prevention and Emergency Response | 115 |
| 4.4.1 Management of transportation accidents | 115 |
| 4.4.2 Safety and emergency | 117 |
| 4.4.3 Transportation simulation | 119 |
| Bibliography | 125 |
| Index | 131 |
